In this period booking will be free of charge (usual tariff of 4 Euros, not applied).

Beginning Friday 6 August 2021 and until further notice, access to the Vatican Museums and all related areas are permitted only to those in possession of a Green Pass COVID-19 Certificate or equivalent certificate for non-EU countries.

Access will be restricted, and phased at 30-minute intervals.

At the moment of booking, it will be necessary to choose your preferred entry time among those available.

On the day of the visit you must observe with extreme precision the time on the booking voucher (for example: those who have booked for 10.00 a.m. may enter no earlier than 10.00 a.m. and no later than 10.30 a.m.). Once the thirty-minute phase has passed, the Guard Corps staff who is responsible for checking the voucher will be able to prevent access to the Museums and, in this case, no refund will be available.

Only for the guided tours organised by the Directorate of the Vatican Museums (see point 3) and for the visits to the Vatican Gardens are visitors requested to arrive 15 minutes in advance of the time on the voucher, so as to enable the necessary reception procedures and to guarantee the punctual departure of the tour.

Within the Museums it will be necessary to maintain an interpersonal distance of over 1 metre and to avoid gatherings. The Guard Corps will ensure that the rule is respected scrupulously. Visitors are reminded to observe carefully the health rules, intended to guarantee the health and safety of all and set out at the end of this document. It is the duty of every visitor to read these rules carefully before the visit, and then to observe them for the duration of their stay within the Museums or the Vatican Gardens.

At the time of booking the visit it is understood that all people who have access to the Museums and who receive the booking voucher will have read, understood and fully accepted all these rules, without exception.
Every violation will be brought to the attention of the competent Authorities. Those who do not follow the rules may be required to leave the Museums.

With regard to the guided tours of the archaeological areas, in addition to the guided tour of the Necropolis of the Via Triumphalis, the guided tour of the Vatican Gardens will once again be available in conjunction with the Necropolis of the Via Triumphalis. APPENDIX

Healthcare rules for the containment of COVID infection
(as dictated by the Directorate of Health and Hygiene of the Governorate of Vatican City State)

1) Obligatory use of masks

Masks serve to reduce the risk that the wearer may infect others, as they stop a good part of the tiny droplets emitted from the mouth and nose when we cough, sneeze, talk. The use of the mask therefore helps to limit the spread of the virus, but it must be adopted in addition to hand washing and respiratory hygiene measures (sneezing and coughing in the crook of the elbow). Even with the mask, the safety distance (over 1 metre) must be maintained.

How to use the mask:

- Before putting on the mask, wash your hands with soap and water or with a hydro-alcoholic solution;
- Cover your mouth and nose with the mask, ensuring that it fits closely to the face;
- Avoid touching the inner part of the mask while putting it on;
- If the mask becomes damp, it is advisable to substitute it with a new one and not to re-use it; indeed, masks are single-use only;
- The mask should be removed by the elastic loops, without touching the front; it must be disposed of immediately in the undifferentiated waste;

Surgical masks should in any case not be used for more than one day.
Obligatory use of masks also in open spaces, in any case continuing to maintain the safety distance of more than 1 metre.

2) Frequent hand washing

Washing and disinfection of the hands are decisive to prevent infection. They must be washed with soap and water for at least 20 seconds. If soap and water are not available, it is possible to use a hydro-alcoholic disinfectant gel. Disinfectant gel dispensers will be available inside the Museums.

3) Avoid touching the eyes, nose and mouth with hands

The virus is mainly transmitted through the respiratory tract, but it can also enter the body through the eyes, nose and mouth. Therefore, avoid touching your face with unwashed hands. If your hands come into contact with surfaces contaminated by the virus, they can cause infection.

4) Avoid close contact with other people

Maintain an interpersonal distance from other people of over 1 metre.

5) Use of elevators

The use of elevators will normally be reserved for people with mobility difficulties or particular health conditions that make it advisable.

Normally it will be permitted only to ascend by elevator, other than in particular conditions that would imply use also for descent.

Access to the elevator cabin will normally be possible for just one person at a time.

Disabled visitors may enter elevators with a companion.

6) Avoid sharing bottles and glasses
